Link-Check Notes (added by Claude, August 2026)

This document was reviewed in full (all 171 entries). Broken or outdated hyperlinks have been corrected directly in the list above. The notes below flag items that need your attention or a judgment call before publishing.

SITES REQUIRING IMMEDIATE REMOVAL (compromised/hijacked domains)

- Journal of Contemporary Medical Education (jcmedu.org): the site has been hijacked and now serves gambling and adult-content spam links. Do not link to it.
- Medical and Health Sciences Education Journal (mhsej.net): domain appears dead/repurposed, showing up only in spam link-farm listings.

ENTRIES OF QUESTIONABLE LEGITIMACY (recommend removing or replacing)

- Journal of Medical Education Perspectives: its only web presence is a Facebook page; no independent journal website, editorial board, or indexing could be found.
- International Journal of Clinical Skills (ijocs.org): the site is live but shows hallmark signs of a predatory-publisher takeover (pay-to-fast-track “FEE-Review” fees, templated self-promotional text).

CONFIRMED DISCONTINUED / DEFUNCT (kept in the list above per your instruction, flagged inline; consider moving to a separate “inactive” section)

- Education Research International (Hindawi): ceased publishing September 2024.
- Medical Education Development (PagePress): stopped accepting submissions January 2014.
- Annals of Behavioral Science and Medical Education: sponsoring association (ABSAME) dissolved 2017; Springer confirms the journal is archived and no longer receiving submissions.
- The Internet Journal of Medical Education (ispub.com): publisher confirms it was merged into The Internet Journal of Health years ago.
- The Journal of Competency-Based Education: Wiley stopped publishing it in January 2022 (continuation, if any, is at wgu.edu).
- IVSA Journal of Veterinary Education (Issuu): only 3 issues ever published, none since roughly 2021.

DUPLICATE ENTRIES (same journal listed twice)

- Gerontology & Geriatrics Education – appears twice (Tandfonline /loi/ and /journals/ links).
- Journal of Biomedical Education (Hindawi) – appears twice; also confirmed defunct (see above).
- Journal of Education and Health Promotion – appears twice (jehp.net, with and without “www.”).
- Education in Medicine Journal (Malaysia, eduimed.usm.my) – appears twice under slightly different URLs.
- Journal of Medical Education (journals.sbm.ac.ir/jme) is the same journal as “Journal of Medical Education for Future Demands” elsewhere in the list – it was renamed and moved to Brieflands; the link above has been updated accordingly.

SECURITY CAUTION (link itself is fine – just don’t alter it)

- The Egyptian Journal of Medical Education: keep the “www.” prefix on ejme.org exactly as written. The bare domain (no www) has been hijacked and now shows gambling content.

OTHER MINOR CLEANUP (not broken, just untidy – optional)

- A few entries carry unnecessary tracking parameters (utm_source, srsltid, Google Analytics strings) that can be trimmed for a cleaner published list (World Journal of Medical Education and Research; International Medical Education/MDPI; Global Medical Education).
- A few entries link to a specific old back-issue rather than the journal's current homepage; these still work but could be pointed at the homepage instead (Teaching and Learning in Medicine; Anatomical Sciences Education; Education for Primary Care; BMJ; Journal of Workplace Learning).

Everything not listed above or flagged inline in the list was confirmed working as of August 2026.
